

Dear Parent / Guardian,

At Hyde Technology School we believe that school/home contact is vital in providing parents/carers with up to date information about school events as well as information on your child.

The government expectation is that:

*'From September 2008 all maintained schools will be expected to start the move towards online reporting with:*

- *all secondary schools providing parents with online reports by September 2010*
- *all primary schools meeting the requirement by September 2012'*

As a step forward in our move to providing online reporting as well as improved all round parental engagement with school life, we are asking parents/carers to provide an email address to be used for school to send out information about school events & important notices from school.

If you have a current email address, we would ask that you fill in the slip below and ask your child to return the slip to their form teacher by **Wednesday 10<sup>th</sup> June**.

If you do not have a current email address and/or internet access, or do not wish for an email address to be used, please indicate on the slip.

We are also ensuring that parent/carer contact numbers are correct. If your contact telephone number has changed recently, could you ensure this is added to the slip also.

Hyde Technology School ensures that all emails/telephone numbers will be treated confidentially and not passed on to any other persons.

Yours faithfully,

Mr N. Prior  
E-Learning Coordinator
